# Hair Loss Control Clinic

## It's as easy as 1-2-3!

### STEP 1:

#### Hair & Scalp Hygiene—

Goal: Creates the best possible environment for your hair to grow! Cleans, Blocks DHT & Adds Topical Nutrients—Quick & Simple

### STEP 2: LASER

*In-Clinic & Home Treatment*

Goal: Re-grow new hair, provide fuller, thicker hair.

**Laser—Proven in an FDA Double Blind Study - 93% of respondents had an average of 19 new thick hairs per centimeter in 6 months.**

### STEP 3:

#### Blocking DHT

Goal: To stop hair loss and regrow hair by blocking more DHT than any other program. DHT is the major cause of hair loss in men and women.

Blocking DHT is important and can be achieved with **HLCC™ Complete (98% of Clients)** or Propecia®

#### Rx Extra - Available.

- As needed for other underlying problems
- Prescription Minoxidil
- ◆ Propecia®

Call today 408-945-0400 for FREE Hair Loss Control and Laser Rejuvenation consultation.

## Physician Directed Treatments

50 yr old Female 1 yr treatment

**FREE Consult - \$249 Value**

With this brochure

### What's involved in a typical consultation & treatment program?

Our consultation consists of a real medical questionnaire, digital microscopic pictures, hair & scalp analysis by Certified Hair Loss Professionals.

In addition, you will receive a customized treatment plan based solely on your individual hair loss needs and objectives.

Photos are taken to show your new hair growth as it happens.

## Our laser hair therapy program works!
